TURN IT ON

Soft, soothing and spectacular, the latest offering by Philips single handedly revolutionizes the way lighting is perceived and employed. With a purpose of creating a dynamic environment that is flexible enough to reflect your every mood, Luminous Textile with Kvadrat Soft Cells brings spaces alive as well as softens sound. It integrates multi coloured LEDs within textile panels, coupled with utmost creative freedom to customise aspects like size, colour, weave, fabric and even arrangement. And to heighten the sensory experience, use a wide content portfolio of decorative and ambient effects to create personal mood walls. **Website: www.philips.com**
