

# Top products chosen from the 2013 Hotel Show

The Hotel Show, now in its 14th year, is one of the most significant business events within the hospitality, industry in the MENA region

This year the event took place at the Dubai World Trade Centre from September 28 to 30, welcoming over 560 regional and international companies. Providing a showcase of interiors, essential equipment, and the newest technology suppliers, The Hotel Show also included a full 3-day conference program detailing the latest trends and forecasts for the industry. Exhibitors at the show represented the five essential sectors of the hotel and hospitality industry, displaying cutting-edge products that can be customized to suit the preferences of discerning clients. Here are 14 new products that caught our eye of the Hospitality News Middle East team.

## GLT

GLT an Italian company established in Turin in 1985 designs and develops building automation and security

solutions for the hospitality industry. Products stand out for their reliability and ease of use, as well as for their numerous customization options. In the field of personal security applications, the emergency call devices manufactured by GLT are simple and efficient solutions for independent living.

### KitLock

Codelocks unveiled the KitLock 1500. Frequently used as a more convenient and functional alternative to standard keyed cam locks KitLock's new sleek-looking lock can be fitted in any orientation due to its patented keypad design. It boasts a 'real time' clock that can be programmed to automatically open after a set period of time, which is great if you are limited to the number of lockers you can fit in your changing rooms. For extra convenience, the keypad can also be replaced with an iButton for use with wristbands. The lock will perform 50,000 openings from two coin cell batteries.
