Safety instructions

Warning:

- OneSpace luminous ceiling panels must be installed by qualified technicians in accordance with all national and local laws, including building codes and safety regulations.
- Do not attempt to install or use a OneSpace luminous ceiling panel until you have completely read and understood the installation instructions and safety labels.
- Only use the supplied mounting brackets to mount a OneSpace luminous ceiling panel.

Installation instruction mounting brackets Philips OneSpace luminous ceiling prefab

1. The mounting kit contains the following parts:
 - 4 rectangular mounting brackets.
 - 8 bolts and 8 washers to mount the brackets.

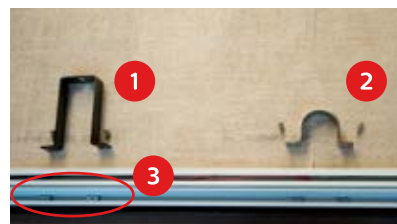

Not in the picture:

- 4 bolts M10x160 / 8 nuts M10 / Instructions.

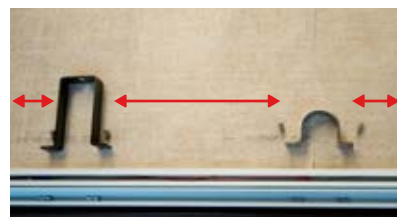

2. The positions of the mounting brackets (1) should be aligned with the structure above the panel. The mounting brackets are positioned on the long sides of the panel, at a maximum distance of 50 cm from the corner. Move the nuts (3) to this position. **The nuts are already placed in the mounting rail of the panel.**

To mount the hoisting brackets (2), please see the hoisting bracket instructions.

3. If needed, mounting and hoisting brackets can be moved to fine-tune the position.
4. Use an Allen key M5 to mount the brackets to the panel.
5. Repeat the mounting of the mounting brackets at all four corners.

6. Mount the panel to the ceiling using the mounting brackets and the bolts M10x160 with each 2 nuts M10.
7. To align the panel horizontally the individual nuts M10 (see circle) can be used.
